

BioPPN2011

The 2nd International Workshop on
Biological Processes & Petri nets

Newcastle upon Tyne, United Kingdom

June 20, 2011

Scope of BioPPN2011

- The workshop promotes discussions between advanced researchers and beginners, which may enhance the activities of Asian countries in Petri net applications on biological processes.
- Main goal will be to demonstrate that this field of application raises new challenges for the Petri net community, and that Petri nets can be effective to tackle such challenges.
